- i. Echinacea 'Mangus'
- j. Monarda 'Raspberry Wine'
- k. Penstemon 'Nana Rondo'
- l. Sedum 'Vera Jameson'
- m. Veronica 'Alba'
- n. Veronica 'Goodness Grows'

Curved Butterfly Garden

Suggested flowering shrubs - Hydrangea, Ruby Spice Clethra

Feel free to substitute plants and colors.

For example, I love Agastache more than I love Campanula.

I would replace the Campanula with another variety of agastache.

Use substitute plants that have the same attributes, and in colors you love.

Make the garden as large as you like by adding more plants and building out or adding rows

Choose the perennials that are cold hardy in your region.

Check the USDA cold hardiness map for your zone.

Plant your plants following the grower's suggestions of space between plants
